ABOUT ME

As a 3D Artist with over 3 years of experience creating high-quality 3D models for games, I am seeking to develop my professional skills in a creative and dynamic environment. Throughout my career, I have proactively learned and applied AI tools to accelerate workflows and enhance product quality, while continuously improving my technical expertise, aesthetic sense, and keeping up with industry trends. My goal is to contribute to quality projects alongside talented teams, delivering creative and innovative products that help build immersive and vibrant game worlds.

WORK EXPERIENCE

Skrice Studio

4/2023 — Present

3D MODELLER

Working at Skrice Studios as a 3D Character Artist.

Experienced in various large and small projects. Notably contributed to the development of Heroes of Mavia — a well-known blockchain strategy game — as well as several other projects within the company.

Freelance 3D Artist

—

3D MODELLER

Participated in diverse projects including high-quality games, hyper-casual games, and models for films, games, 3D printing, and more.

Responsible for deadlines, product quality, and client communication to ensure requirements are fully met.

EDUCATION

2019 — 2023

INFORMATION TECHNOLOGY

Hanoi University

1/2022 — 3/2022

BASIC MODELING COURSE

CG CRY Studio

3/2022 — 6/2022

ZBRUSH BASIC COURSE

CG CRY Studio

SKILLS

TECHNICAL SKILLS

- 3D Modeling: High/low poly modeling, hard surface, and organic modeling
- Sculpting
- Texturing & Shading (PBR pipeline)
- UV Mapping & Baking
- Rendering & Lighting
- Optimization: LOD, topology optimization for real-time engines
- Basic Rigging & Skinning
- Unity Engine — asset integration and testing
- AI-assisted workflow

SOFT SKILLS

- Creative thinking and strong aesthetic sense
- Detail-oriented and meticulous in work
- Problem-solving and troubleshooting skills
- Effective time management, ensuring project deadlines
- Strong communication and teamwork skills
- Flexible, adaptable to various art styles
- Good English proficiency (Hanu Test B2 certificate)
- Ability to self-learn and continuously update new skills
- Technical mindset from IT background — understands engine pipeline, collaborates effectively with dev teams

SOFTWARE

Zbrush, Maya, Substance Painter, Marmoset Toolbag, Character Creator 4, Unity Engine, Photoshop
